Re: Spent Pickle Liquor Storage Tank Volumes

Dear Mr. Munger:

As per Mr. Jeff Piatt's phone conversation of July 12, 1982, this letter is to correct a discrepancy in the spent hydrochloric acid pickle liquor storage tank volumes. The volume of the three storage tanks was stated in my original letter to Mr. Kuykendell dated June 4, 1982, as approximately 30,000 gallons or 10,000 gallons each. Subsequently, the correct volume of the three tanks is approximately 56,400 gallons or 18,800 gallons each.

I am sorry for any delay this may have caused you in processing our permit application.

Yours very truly,

JGM:jh
